**Bun Hung**

**Bun Hung** holds degrees in Arts and Law from the University of Sydney. For the past 30 years, he has worked exclusively in the upstream oil and gas industry, initially as a legal adviser and subsequently in commercial, business development and general management roles. Mr Hung was the General Manager of Command Petroleum Limited prior to that company being taken over by Cairn Energy PLC in 1996, after which he was appointed to the position of Managing Director, responsible for the company's Indian and South Asian activities. In 1994, he led the negotiations for the award of the Ravva Field Development PSC in the KG Basin on behalf of the joint venture comprising Command Petroleum, Videocon Limited and Marubeni Corporation. Many provisions of the Ravva PSC, which was largely drafted by him, still form the basis of a significant part of model PSC's used by the Government of India for the NELP blocks. Mr Hung played a major role in the \$150 million public listing of ROC Oil Company Limited on the Australian Stock

Exchange in 1999 and was an Executive Director of that company until 2001. From 2001 until the present, Mr Hung has been retained by Reliance Industries Limited to advise on strategic development issues relating to Reliance's domestic and international oil and gas business. Mr Hung was the founding Chairman of Orion Petroleum Limited, a listed oil and gas exploration company based in Sydney, a position he relinquished at the end of 2009. In 2013, he was engaged as a Commercial Adviser to Cairn India Limited, a position he currently holds. He has delivered papers at various industry conferences and has advised a number of national oil companies on matters relating to their production sharing contracts. He also runs industry workshops on international petroleum contracts under the auspices of the prestigious School of Petroleum Engineering of the University of New South Wales as well as being an occasional lecturer.
